

NAKKA NARENDRA

PRINTING & PACKAGING DEVELOPMENT LEADER

Secure Packaging & Brand Protection · AI-Driven Print Quality
Bengaluru, India (open to relocation) · +91 99596 14080
nnarendra867@gmail.com · linkedin.com/in/narendra-nakka-printing

PROFESSIONAL SUMMARY

Printing & Packaging professional with **10+ years** across secure packaging, brand protection, packaging development and quality assurance for pharmaceutical, FMCG, automotive and cosmetics brands. Currently **Lead – Printing at Ennoventure** (anti-counterfeit technology), owning artwork feasibility, prepress validation, colour management and print/authentication quality for leading global pharma, FMCG and automotive brands. Combines hands-on press-floor and QA depth with **self-built AI tools** that automate prepress QC, colour and shade-card management — a rare blend of packaging domain expertise and digital innovation. Two-time internal promotee and Star Performer awardee.

CORE COMPETENCIES

- Packaging Development & NPD
- Artwork Management & Prepress Validation
- Artwork QC & Proofreading
- Colour Management (Pantone, CMYK, Delta-E)
- Offset, Flexo, Gravure & Digital Printing
- Vendor / Converter Management
- Quality Control & Assurance
- Regulatory & Safety Compliance
- Substrate, Ink & Coating Expertise
- Anti-Counterfeit, Brand Protection & Serialization
- Flexible Packaging, Cartons & Labels
- Spectrophotometry & Shade Cards
- SOP Development & Documentation
- Cross-Functional Team Leadership
- Sustainable Printing
- AI & Workflow Automation

TECHNICAL SKILLS

Design & Prepress: Adobe Illustrator, Adobe Photoshop, Adobe Acrobat, CorelDraw, Canva; spectrophotometry & colour QC; prepress, separations & artwork validation.

AI & Automation: Agentic-AI tool building to solve printing/QC workflow problems; AI vision for artwork analysis; prepress QC automation; analytics dashboards & report generation.

Tools & Platforms: Jira, Confluence, Microsoft Office (Excel, Word, PowerPoint), Microsoft Teams, Microsoft Outlook, Google Workspace (Drive, Sheets, Docs), Ennteract (encryption platform).

PROFESSIONAL EXPERIENCE

ENNOVENTURE TECHNOLOGIES PVT. LTD.

Bengaluru, India

Lead – Printing

Dec 2024 – Present

- Lead secure-packaging print operations across **offset, gravure, flexographic and digital** processes for **leading global pharma, FMCG and automotive brands**.
- Own **artwork feasibility and prepress validation** — colour-format compliance (Pantone/spot vs CMYK), separations, dimensional and encryption readiness — before production release.
- Drive **colour management** to brand tolerances: Pantone matching, **Delta-E** control, spectrophotometer **Lab*** evaluation, and ink-formulation recommendations to converters.
- Validate print and authentication performance through printed-sample testing and anti-counterfeit robustness checks (original vs photocopy vs 300/600/1200 DPI).
- Coordinate **global print vendors** through proofing, trials and production runs; resolve pattern distortion, scan failures, colour mismatch and ink inconsistencies.
- Partner with R&D, Product, Data Science and Customer Success teams; author **SOPs, prepress guidelines and technical reports**; track via Jira and document in Confluence.
- Deliver structured **knowledge transfer and training** to new delivery and customer-success team members.

Printing Senior Associate

Dec 2023 – Nov 2024

- Managed **prepress validations, print-trial coordination and vendor interactions** for encrypted packaging projects.
- Identified and resolved print-quality issues including pattern distortion, scanning errors and colour mismatch.
- Supported artwork feasibility evaluations and produced detailed technical assessments and recommendations.

SUKEE PRINT PACK

Kanakapura, Karnataka, India

Printing & Packaging Development and QA In-charge

Feb 2022 – Dec 2023

- Led **packaging development and QA** for FMCG, pharma, garments and cosmetics brands — from material and structure selection through print trials to final approval.
- Managed the development team and coordinated cross-functionally with **marketing, sales, design and operations** to meet dispatch timelines.
- Developed **POSM** (danglers, wobblers, shelf strips, leaflets, posters) and mono/display/unit **cartons, labels and E-flute packaging**.
- Oversaw **colour separations, artwork accuracy vs brand guidelines, shade-card preparation** and vendor colour standards.

- Ensured **regulatory and safety compliance** and maintained an approved-artwork and colour-profile repository.
- Brand work included Wipro, Premier, MTR / Smoor / Eastern, Jockey, Ramraj, Van Heusen, Nykaa, Enamor, Titan, Yardley, Bio Plus and Ultra Laboratories.

Printing & Packaging Quality Executive

Aug 2019 – Feb 2022

- Established and ran **QC procedures** ensuring consistent quality of printing and packaging materials across multi-colour offset/UV presses, lamination, punching and pasting lines.
- Implemented in-process **testing protocols**; analysed quality data and initiated corrective action on deviations (NC/CAPA).
- Trained floor personnel on QC procedures; maintained inspection documentation and audit records.

SRI LAKSHMI NARAYANA BOOK BINDERS PVT. LTD.

Hyderabad, India

Quality Control Executive

Apr 2016 – Jul 2019

- Inspected and sample-tested materials and finished products (**ITC notebooks**) for defects and deviations from specification.
- Reviewed blueprints, plans and job cards; measured dimensions and verified functionality against specifications.
- Held or rejected non-conforming materials; supported approvals and monitoring; maintained in-process checklists and inspection reports.

AI-BUILT TOOLS & DIGITAL INNOVATION

Independently designed and deployed **10+ internal tools using agentic AI** with no prior programming background — encoding printing and colour-science domain knowledge into working software used daily in QC, prepress, reporting and delivery workflows. A rare intersection of packaging expertise and AI-driven problem-solving.

- **Print QC Management Portal**: enterprise platform for shade-card and product-master lifecycle, QC inspections, prepress validation and analytics; captures Pantone/CMYK/LAB/Delta-E specs and overt/covert/serialization data, with **AI-assisted analysis**.
- **Prepress Image Comparison Tool**: uses **AI vision** to compare vendor artwork against master references with pixel-level difference maps, quality metrics and **vendor scorecards**, plus an approval workflow with full audit logging.
- **Print QC Analytics & Report Generator**: real-time KPI dashboards across QC inspections, prepress validations and product status — replacing manual Excel tracking (expiry alerts, QC pass/fail, CAPA queues, vendor charts) with role-based CSV/JSON export.
- **Print Sample Hub**: print-sample management with QR tracking labels, sequential IDs and cross-team visibility.
- **VectorSync 'Artwork PreCheck'**: unified tool that converts .AI/.EPS/.PDF/.ZIP artwork to print-ready PDF + PNG at 600 DPI, generates analysis reports and runs image comparison.
- **Encryption Pattern Extractor**: automation that converts Adobe Illustrator (.AI) security artwork into production-ready PDF/PNG for the print-production handoff.
- **Printing-Flow Report Generator**: generates standardised printing-process flow and recommendation reports for artworks.
- **Jira Analytics & Automation (Deep Dive Desk)**: delivery/SLA analytics with client-facing PPTX exports; bulk Jira automation reducing a multi-hour manual task to a single CSV-upload workflow.
- **Side projects (self-built with AI)**: FitLog health & fitness-tracking PWA, a Medication Dosage Timeline visualiser, and an Email Signature Generator — demonstrating building range beyond print.

EDUCATION

B.Tech, Printing & Packaging Technology

2019

Guru Jambheshwar University of Science & Technology, Haryana | 71%

Diploma in Printing Technology

2016

Government Institute of Printing Technology, Secunderabad | 75%

INDUSTRIAL TRAINING

- **KL Hi-Tech Secure Print Ltd. (Security Printing)** — Implant Training (6 months), 2015: prepress, artwork & colour separation, CTP and conventional plate exposing, pressroom controls & 5S.
- **AGI Closures** — Implant Training (6 months), 2016: injection moulding, plastic printing, dry offset, pad printing, screen printing.
- **Vaarth News Network** — Implant Training (6 months), 2017: web offset printing, prepress & colour management.

AWARDS & RECOGNITION

- **Star Performer Award** — Ennoventure, 2025.
- **Value Champion** — Ennoventure, 2025.
- **Value Award** — Ennoventure, 2024.

ADDITIONAL

Languages: English, Hindi, Telugu, Kannada, Tamil.

Thought Leadership: Creator of the “Ink Meets Intelligence” LinkedIn series on AI in printing, packaging and brand protection.
